Q.rity | Cyber Security Center

Your business requires much more than a SOC

We got you covered!

Cyber space is rapidly evolving, and accordingly cyber threats and advanced attacks are on the rise, threatening governments, organizations, individuals and targeting critical information assets and valuable operations.

60% of companies go out-of-business after a cyber attack

Our cyber security center constantly monitors your systems and alerts on any suspicious activity that might evolve to a cyber-attack.

Q.rity and **Dell EMC** has established a Cyber Security Center (CSC), leveraging their cyber knowledge and experience, to insure businesses can focus on their operational activities while Q.rity take care of cyber security.

Key Benefits

▶ All your cyber security services under one roof

▶ Mitigate threats ahead of time by utilizing the CSC's continuous monitoring and analysis mechanisms

▶ Cyber security situation room; 24/7 ongoing service: before, during and after cyber events

▶ Facilitate your organization with forensics and response teams as well as business continuity and data recovery capabilities

▶ Efficient & cost-effective services, avoiding the burden of maintaining complex systems, mechanisms, and oversized workforce

▶ Enhance your organization's security level and readiness – train and drill your organization

About Q.rity?

Q.rity is affiliated with TSG, a reputed and awards winning company for development of public safety and military security software. TSG is held equally by Israel Aerospace Industry (IAI) and Formula.

Q.rity and Dell EMC have joint forces to leverage their vast civil and military experience in the cyber arena and established a Cyber Security Center (CSC) to insure a comprehensive protection countering cyber-attacks.
